

Maciej Słupianek

Frontend Developer

Profile

Frontend Developer with a strong foundation in Vue.js, TypeScript, and modern web development practices. Experienced in building scalable, user-focused applications, with proficiency in state management tools and progressive web apps. Adept at collaborating in team environments and continuously improving technical and soft skills. Seeking opportunities to contribute to innovative projects within a dynamic team.

Work Experience

○ Apr 2024 - Present

TaxShield Sp z o.o

Junior Frontend Developer (Vue.js, PWA)

- Spearheaded the frontend design and development of the company's PWA using Vue.js, enhancing user experience and app responsiveness.
- Implemented state management solutions with Vuex to optimize application performance.
- Develop a framework using Vuetify and Vuex that integrates with a backend to enable the design and showcasing of controllers in the form of tables within the application.

Jul 2022 - Oct 2022

Wirtualna Polska Media S.A..

○ Intern Frontend developer (Vue.js, Typescript)

- Contributed to large-scale projects using Vue.js and TypeScript, improving overall code quality and maintainability.
- Gained hands-on experience in team collaboration, agile methodologies, and industry-standard tools such as Jira and Asana.

2019 - Present

Self employed

○ Tutor

- I provided tutoring in mathematics, physics, and guitar, sharpening communication and interpersonal skills.
- Developed tailored lesson plans to meet diverse student needs, fostering a results-oriented environment.
